## EDUCATION

**Izmir University of Economics** | Izmir, Turkey  
**Computer Programming (Associate Degree)** 2024 – Present

**Balçova Anatolian High School** | Izmir, Turkey  
**High School Diploma** 2020 – 2024

## WORK EXPERIENCE

**ECOVIS Diplomat Denetim ve YMM A.Ş.** | Izmir, Turkey  
**Office Assistant (Part-Time)** 12/2024 – 06/2025

- Assisted in transferring company data to Excel spreadsheets and databases.
- Provided technical support for system and web-related issues.

## PROJECTS

**TAK Regulator Corporate Website** – *HTML · CSS · JavaScript*

Designed and developed a corporate website from scratch for TAK Regulator, a servo voltage regulator manufacturer operating since 1969. The site features a product catalog, technical specifications, and a contact section.

<https://www.takregulator.com>

**YouTube Audio Converter** – *Python*

A desktop application that downloads audio from YouTube videos and converts them to WAV and AIF formats.

[https://github.com/HereSansy2426/Youtube\\_wav\\_ve\\_aif\\_donusturucu](https://github.com/HereSansy2426/Youtube_wav_ve_aif_donusturucu)

**WatchMan** – *Svelte · C#*

A system and network security monitoring application for Windows. The project aims to combine live network traffic analysis running in the background with a web dashboard under a single application. I was responsible for the frontend in this group project.
